SHIRE PUBLICATIONS LTD, United Kingdom, 2008. Paperback. Book Condition: New. 204 x 144 mm. Language: English . Brand New Book. The 1930s home presented an exciting new way of living for the generation that moved out to the suburbs. Young couples who had previously rented accommodation in urban centres found themselves able to afford new-build homes with hot running water, a bathroom indoors and even aerials for the wireless already installed. Some four million houses were erected, mostly in cosy semi-detached styles that harked back to traditional cottage architecture. The design elite rejected this Stockbroker Tudor look and opted instead for brave, flat-roofed modernist villas. But whether the house drew on historical references or futuristic ones, interest in interior decoration boomed. This book introduces the homes that people fell in love with in the 1930s, and the fixtures and fittings that went in them. With nearly hundred illustrations and informative chapters on architectural styles, gardens, furnishings and technology in the home, this book is the most popular introductory guide to the houses of the period. It is not only a practical and valuable companion for people who own or wish to renovate an inter-war house but also will appeal to all those interested in period design.
