paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Language: Chinese in Publisher: Science Press. Road macro sensitivity, etc. compiled the electromagnetic field and electromagnetic basis of the system the distribution of electromagnetic field and electromagnetic wave propagation and radiation of the basic characteristics and laws of the electromagnetic field and electromagnetic engineering applications analysis and calculation approach. The book is nine chapters, including vector analysis and field theory, the electrostatic field, a constant current of the electric and magnetic fields, the solution of the static field, time-varying electromagnetic field, description of plane electromagnetic waves, electromagnetic radiation, and guided electromagnetic waves and electromagnetic numerical methods. The book lists a large number of examples, each chapter with a summary and exercises. The appendix gives an important vector formulas commonly used mathematical formulas point of the charge density of the function, as well as quantities and units. Refining the contents of the electromagnetic field and wave basis, the clarity, rigorous argument, highlight the theory and application of a combination of careful attention to the course content and the convergence of the follow-up course content and contact, knowledge-oriented inheritance, innovative and practical. The book can be used as ordinary institutions of higher learning electronic information, communication undergraduate teaching materials, and related engineering and technical personnel are also available for reference.
