## The Chemical Constitution of the Proteins; Analysis

By Robert Henry Aders Plimmer

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1912 edition.

Excerpt: . prepared from sec. butyl iodide and sodium acetoacetic ester:  $\text{--CH}_2\text{CH}(\text{COCH}_3)\text{CH}_2\text{COCH}_3$ . This compound, when treated with nitrosyl sulphate was decomposed into acetic acid and  $\alpha$ -oximino-sec-butylacetic acid, which, on reduction with zinc dust and hydrochloric acid in alcohol, gave a 60 per cent, yield of dl-isoleucine:  $\text{--CH}_3\text{CH}(\text{NOH})(\text{NH}_2)\text{CH}_2\text{COOH}$ . Locquin has since obtained d-isoleucine from this racemic compound which was identical with Ehrlich's natural product, and this therefore has the above constitution. By the same series of reactions which Fischer and Schmitz employed in the preparation of leucine, F. Ehrlich synthesised isoleucine in 1908 from malonic ester and secondary butyl iodide, i.e., according to the following scheme:...

### Reviews

*These sorts of pdf is the greatest pdf available. It really is written in simple words and never difficult to understand. I am just very easily could get a delight of studying a written ebook.*

-- Mr. Allen Cassin

*This is an incredible book that I have ever read through. It can be really exciting through reading through time period. I discovered this publication from my i and dad recommended this pdf to find out.*

-- Friedrich Lynch DDS
