Audible Studios on Brilliance, 2016. CD-Audio. Condition: New. Unabridged. Language: English . Brand New. Despite the incredible growth of exchange-traded funds (ETFs) and the fact they've been on the market for 15 years, some investors are still either unaware of the effectiveness of ETFs or unsure of how to use them in their investment endeavors. That's why respected ETF expert and journalist Lawrence Carrel has written *ETFs for the Long Run*. Filled with in-depth insights and practical advice, this reliable resource puts ETFs in perspective and reveals how they can help you profit in both up and down markets. Page by page, Carrel takes you through the ins and outs of ETFs, including their history, the tax benefits and minimal charges associated with them, and the fundamental differences between ETFs and other types of investments. He also provides you with the resources and tools needed to trade ETFs and build your own ETF portfolio. You may have heard about ETFs while researching other investments or speaking with an investment advisor. If you want to learn more about them, this book will provide you with a clear understanding of what ETFs are, how they work, and how they can be used to create a low-cost, liquid, and diversified portfolio.
